7-Eleven Syrups - The Vanilla, Cherry and Lemon Flavor Shots offered at the fountain soda machine at many 7Eleven stores are kosher DAIRY - CHOLOV STAM!!

Until recently, if the syrup was known to be kosher then there was no reason not to buy a drink from the fountain dispenser. However, over the past few months, 7-Eleven has introduced a new fountain soda machine into their stores which has raised doubts about these assumptions. Drink Mix Powders

There are several drink mix powders on the market that use the brand name of popular sodas (pops) on the market, such as Orange Crush and Hawaiian Punch. These are just brand names that were bought through a licensing process and have absolutely no connection to the actual soda

company. They would all require a reliable kosher certification on each label to be considered kosher.

This is only a partial list of the kosher status of particular Beverages.

Unless indicated otherwise, the cRc does not certify any particular beverage. This list is only meant to indicate the kosher status of those products.

Other than the stores and restaurants that are fully certified by the cRc, the cRc does not certify any individual facility or vending machine.
